

MOON TENT

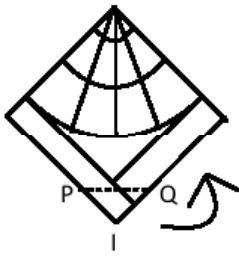

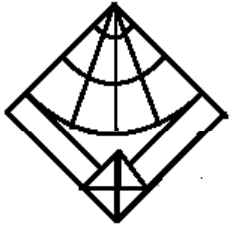

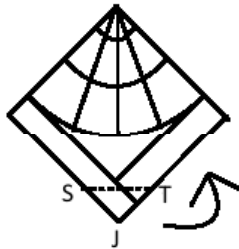

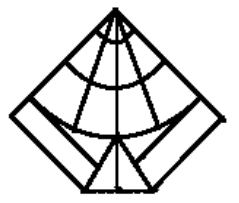

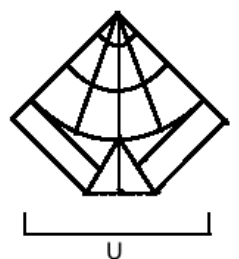

Directions for Making the Moon Tent

The Moon Tent can be made according to the directions given below. For each step, there is an instruction explaining 'what to do' and an illustration showing 'how to do'. Illustrations shown are disproportionate in size and are just an indication.

S/N	Instructions	Illustration
1	The sheet provided to you has one side printed as shown in the illustration.	
2	Turn the sheet over so that the blank side is facing you and the pattern is on the lower half on the back page towards you.	
3	This is the blank side with the printed pattern on the lower half of the back page.	
4	Fold AB to CD along EF.	

5	It should look like this. This image has been enlarged from the previous illustration.	
6	Fold F to H and E to H	
7	It should look like this.	
8	Fold upper layer of AB along IJ.	
9	It should look like this.	
10	Turn the moon tent over to the other side. Fold up CD along IJ.	
11	It should look like this.	

12	Tuck the section NDJ (just the top layer of the paper) back around the edge of the tent, so it is between the back of the tent and the back folded layer of paper.	 <p>The triangular section (NDJ), on the front side</p>
13	Fold section NBJ (back section) towards you over the edge of the tent, and press flat.	 <p>The triangular section (NBJ), on the back side</p>
14	It should look like this.	
15	Do the same thing to the left hand side corner. It should look like this.	
16	Pick up the tent and hold in hands, with the open side (O) down. Open up O with your fingers and keep pulling it apart until the points of I and J meet.	
17	Turn the paper so I is facing up and J is underneath. It should look like this:	

18	Fold up I along PQ.	
19	It should look like this:	
20	Turn over so that J is facing up. Fold up on ST.	
21	It should look like this:	
22	Open up U and stand your Moon Tent!	
23	For a good quality moon tent, make sure that I and J stay up along the tent
